No. 1 1–110 published November II 1987
No. 2 111–174 published December I 1987
No. 3 175–260 published December II 1987

Abel L → Globerson A et al 185
Adamson ED → Grover A et al 138
Ager A → Kumar S et al 57
Albrecht-Buehler G → Lewis L et al 228
Amagai A: Regulation of the developmental modes in *Dictyostelium mucoroides* by cAMP and ethylene 111
Auerbach R → Globerson A et al 185
Baez A → Gonzalez FA et al 125
Barrandon Y → Lewis L et al 228
Beltràn-Langarica A → Castro-Muñozledo F et al 211
Biagioni S → Senni MI et al 194
Bourdon M → Grover A et al 138
Bührle CP → Nobiling R 47
Cairns JS → Globerson A et al 185
Castrignanò F → Senni MI et al 194
Castro-Muñozledo F, Marsch-Moreno M, Beltràn-Langarica A, Kuri-Harcuch W: Commitment of adipocyte differentiation in 3T3 cells is inhibited by retinoic acid, and the expression of lipogenic enzymes is modulated through cytoskeleton stabilization 211
Chowdhury K → Schulze F et al 130
Cossu G → Senni MI et al 194
Dauça M → Figiel A et al 116
Drescher U → Schulze F et al 130
Dudouet B → Figiel A et al 116
Edwards SA → Grover A et al 138
Figiel A, Schilt J, Dudouet B, Robine S, Dauça M: Stage-specific polypeptides and villin expression during the intestinal epithelium substitution of the metamorphosing amphibian 116
Fouquet B → Jahn L et al 234
Fox N, Solter D: Expression and cAMP-mediated regulation of the human gonadotropin *alpha* subunit gene in transfected mouse L-cells 255
Franke WW, Moll R: Cytoskeletal components of lymphoid organs. I. Synthesis of cytokeratins 8 and 18 and desmin in subpopulations of extrafollicular reticulum cells of human lymph nodes, tonsils, and spleen 145
Franke WW → Jahn L et al 234
Franzen A, Heinegard D, Solursh M: Evidence for sequential appearance of cartilage matrix proteins in developing mouse limbs and in cultures of mouse mesenchymal cells 199
Globerson A, Woods V, Abel L, Morrissey L, Cairns JS, Kukulansky T, Kubai L, Auerbach R: In vitro differentiation of mouse embryonic yolk sac cells 185
Gonzalez FA, Llende M, Baez A, Ortiz JR: The antitumor drug 3-nitrobenzothiazolo(3,2-a)quinolinium chloride (NBQ): effects on lens regeneration and interaction with DNA of *Notophthalmus viridescens* 125
Green H → Lewis L et al 228
Gross P → Minuth WW et al 23
Grover A, Edwards SA, Bourdon M, Adamson ED: Proteoglycan-19, laminin and collagen type IV production is correlated with the levels of mRNA in F9 cell aggregates differentiating in the presence or absence of cyclic AMP 138
Gruss P → Schulze F et al 130
Haffen K → Kedinger M et al 71
Heinegard D → Franzen A et al 199
Jahn L, Fouquet B, Rohe K, Franke WW: Cytokeratins in certain endothelial and smooth muscle cells of two taxonomically distant vertebrate species, *Xenopus laevis* and man 234
Kedinger M, Haffen K, Simon-Assmann P: Intestinal tissue and cell cultures 71
Keeble S → Maden M 175
Kubai L → Globerson A et al 185
Kukulansky T → Globerson A et al 185
Kumar S, West DC, Ager A: Heterogeneity in endothelial cells from large vessels and microvessels 57
Kuri-Harcuch W → Castro-Muñozledo F et al 211
Lattermann U, Müller U: Posttranslational modifications as a cause of gonadal polypeptide diversity in the rat 220
Lehtonen E → Saxen L 2
Lewis L, Barrandon Y, Green H, Albrecht-Buehler G: The reorganization of microtubules and microfilaments in differentiating keratinocytes 228
Llende M → Gonzalez FA et al 125
Maden M, Keeble S: The role of cartilage and fibronectin during respecification of pattern induced in the regenerating amphibian limb by retinoic acid 175
Marsch-Moreno M → Castro-Muñozledo F et al 211
Minuth WW: Neonatal rabbit kidney cortex in culture as tool for the study of collecting duct formation and nephron differentiation 12
Minuth WW, Zimmermann B: Preface: The state of differentiation in cultured cells 1
Minuth WW, Steckelings U, Gross P: Methylation of cytosolic proteins may be a possible biochemical pathway of early aldosterone acition in cultured renal collecting duct cells 23
Moll R → Franke WW 145
Morrissey L → Globerson A et al 185
Müller U → Lattermann U 220
Nobiling R, Bührle CP: The mesangial cell culture: a tool for the study of the electrophysiological and pharmacological properties of the glomerular mesangial cell 47
Ortiz JR → Gonzalez FA et al 125
Poiana G → Senni MI et al 194
Robine S → Figiel A et al 116
Rohe K → Jahn L et al 234
Saxen L, Lehtonen E: Embryonic kidney in organ culture 2
Scarsella G → Senni MI et al 194
Schilt J → Figiel A et al 116
Schulze F, Chowdhury K, Zimmer A, Drescher U, Gruss P: The murine homeo box gene product, Hox 1.1 protein, is growth-controlled and associated with chromatin 130
Scott DM: Differentiation in vitro of primary cultures and transfected cell lines of epithelial cells derived from the thick ascending limb of Henle's loop 35
Senni MI, Castrignanò F, Poiana G, Cossu G, Scarsella G, Biagioni S: Expression of adult fast pattern of acetylcholinesterase molecular forms by mouse satellite cells in culture 194
Simon-Assmann P → Kedinger M et al 71
Solter D → Fox N 255
Solursh M → Franzen A et al 199
Speers WC → Zimmermann BT 164
Steckelings U → Minuth WW et al 23
West DC → Kumar S et al 57
Woods V → Globerson A et al 185
Zimmer A → Schulze F et al 130
Zimmermann B: Lung organoid culture 86
Zimmermann B → Minuth WW 1
Zimmermann BT, Speers WC: Induction of differentiation of murine embryonal carcinoma cells by ouabain 164
